## COSMOPLAST DSK 266

Adhesive sealant for vapour barriers

✓ patented

COSMOPLAST DSK 266 achieves values for air proofness that in test cycles, have resisted to pressure and suction load complying with hurricane force. Tested and certified by the Fraunhofer Institute for building physics (IBP) in Stuttgart according to DIN 18055, DIN EN 42 and DIN EN 77.

Foils and window tapes that have been bonded indoor with COSMOPLAST DSK 266 do not affect the living space climate as certified by the Eurofins institute, Danmark.

- acrylate polymer dispersion
- strong adhesion, self-adhesive, permanently elastic
- wide adhesion spectrum on the usual vapour barrier foils and building materials
- adhesive sealing resistant to ageing on stone, concrete, plaster, wood, glass fiber boards and plasterboards as well as metal surfaces
- application without any press lath
- no corrosion on metals
- resistant to freezing up to - 30 °C
- processable from - 5 °C on

### FIELDS OF APPLICATION

airproof bonding and sealing of:

- vapour barriers
- vapour brakes
- sealing foils

In dry building and for the window and door assembly

**COSMOPLAST DSK 266 is available in the following packaging:**

- 310 ml PE cartridges
- 600 ml Alu/PE tubular bags

Certified by:

**eurofins**  
the bioanalytical company

## COSMOPLAST 274

### Assembly adhesive sealant

COSMOPLAST 274 is a solvent-free universal adhesive sealant for assembly works with a particularly high initial adhesion and elastic adhesive and sealing joint.

Can be used without additional mechanical fixation according to RAL assembly for window tapes and connections in new building and renovation according to DIN 4108-7 (2001-08).

**COSMOPLAST 274 is available in the following packaging:**

- 310 ml PE cartridges
- 600 ml Alu/PE tubular bags

## COSMOPLAST USK 815

### Adhesive sealant

✓ patented

Only one product for three applications:

- bonding and sealing of overlapping foil areas
- sealing of nails and cramps in the area of the counter batten
- connections to walls, gables, chimneys, etc.

100% safety against rain - certified by the Fraunhofer Institute for building physics, Stuttgart (test report according to DIN EN 13111).

**COSMOPLAST USK 815 is available in the following packaging:**

- 310 ml PE cartridges
- 600 ml Alu/PE tubular bags

- acrylate polymer dispersion
- excellent bonding strength on the common absorbent derived timber products and building materials, ceramics, metals, thermosetting and thermoplastic materials as well as polyolefin foils (PE and PP foils)
- quick functional hardness
- no corrosion on metals
- good initial resistance against rain
- resistant to freezing up to - 30 °C
- processable from - 5 °C up

- 1-part polyurethane
- viscoplastic, slightly foaming
- optimal penetration properties into the geomembrane
- cuts off the wicking action of the geomembranes
- can also be processed on slightly humid and dusty undergrounds
- gap filling - can also be used on rough surfaces to be bonded
- easy, time-saving and safe handling
- heat resistance up to + 110 °C
- resistant to freezing up to - 30 °C
- processable from - 5 °C up

Certified by:

## FIELDS OF APPLICATION

**Bonding and sealing of:**

- on frame profiles and window and door soffits

**Can also be used for diverse applications in the fields:**

- building trade
- assembly
- industry

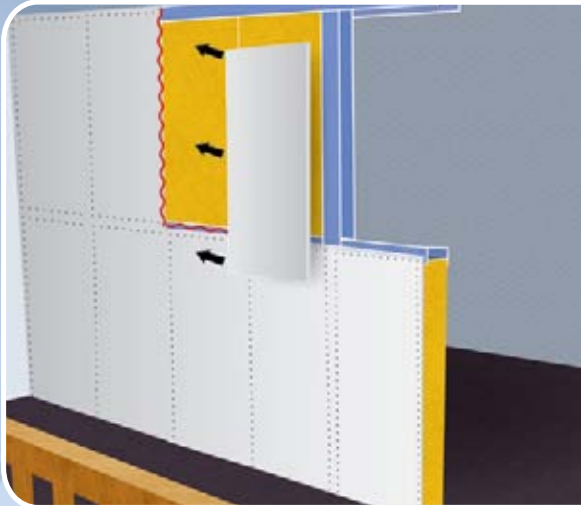

## FIELDS OF APPLICATION

**windproof and rainproof bonding and sealing of:**

- roof underlays
- roof sheetings

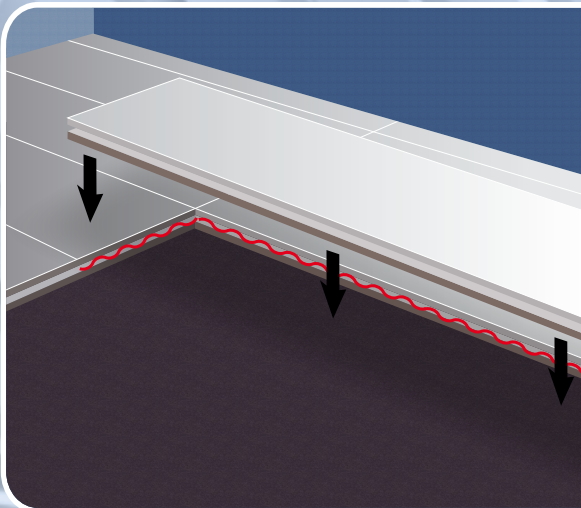

**COSMOPLAST „Airproof bonding“ assures a long-lasting sealing of the joints and thus helps you to save energy.**

### **COSMOPUR K4** 1-part PUR adhesive

Reliable PUR assembly adhesive for the joint bonding of gypsum fibreboards, waferboards, cement chipboards, plates of PUR recycle, PS foam plates, etc.

- gap-filling
- long open time
- D4 properties
- hard but elastic adhesive joint

### **COSMOPUR 810** 1-part PUR adhesive

Powerful PUR adhesive for the bonding of floor pavement plates.

- solvent-free
- hard but elastic adhesive joint
- D4 properties
- suitable for the bonding of different material surfaces
